POOR ORIGINAL

Our city fathers are in a big dispute at press time about buying a new packer body for a garbage truck. We have listened to the arguements and statements about what is needed, and what has been said, and by whom it was said. After hearing all this, we sit back and attempt to come to some conclusion about just who is right, but alas, there is no clear cut RIGHT. first we think it is abuse of the law to declare an emergency and spend \$15,000 of our tax money on a truck body without taking bids. Second, knowledgeable persons say the present truck can and will be fixed for less than \$2000 and not the \$12,000 quoted by the salesman. However if a majority of the voting members of the governing body tells a firm "go ahead, we will buy it by declaring an emergency," then the expense incurred by the firm was a direct result of this commitment (in this case by Mayor and two councilmen) and therefore, we have wrongs that lean to both a yes and also a no vote on the purchase. Three Elba councilmen, two city employees, and a representative of the garbage body firm say Mayor Folsom said Friday he was declaring an emergency and was buying the body. Five of these people were present in one group when the statement was reportedly made. Mayor Folsom says he used the word "IF," yet no one seems to remember this but him. However in less than thirty minutes after the group split up, City Clerk Jack Prescott, who was one of the group, refused to issue a purchase order to the firm and said he told the man he couldn't because all this was not sure until after the council meeting Tuesday night. Yet Monday, the man reports he has already borrowed the money at the bank, purchased the body and it can't be returned and Elba 77, of Rt. 5, Elba, died Sunthe bank, purchased the body and it can't be returned and Elba

Elba has ample garbage pick-up equipment, and the other truck will be fixed shortly. Folsom says such action would leave him and the others libel for a law suit for abusing the law, and on this point we agree. Members of the city council say and Wallace Sellers officiata verbal commitment is as good as a purchase order and reing. Burial followed in the usal to honor the commitment leaves the city open for a law Hebron Church cemetery, with suit and makes Elba the laughing stock of the state. Again Hayes Funeral Home directwe agree. Hence straddling is not our style, but in this case, ing. we honestly don't have an opinion as to what would be the best move to make now.
